### Education

Currently pursuing a computer science program at Riara University maintaining a GPA of 3.8/4.0

Also taking up a certification in Networking HCIA from Huawei

Acquired a CISCO certification in C++

### Objectives

I aspire to excel in computer science as a leading AI and machine learning software engineer. I hope and believe that i can make the world a better place using the art of software design

### Skills

- Web development
- Can work with SQL databases
- App development
- Networking
- Fluent in Microsoft Excel

### How a job might help

A job offers practical experience, skill development, and networking opportunities.

It allows me to contribute to groundbreaking AI projects and career progression.

With hands-on expertise, I'll advance towards my goal of becoming a recognized AI specialist.

### Projects

- To-Do List Application

- E-commerce Websites - i worked with many E commerce websites mostly as a volunteer

- Data Visualization Project

Project Title: Interactive COVID-19 Dashboard

I created an Interactive COVID-19 Dashboard that provides real-time insights into the global pandemic. Leveraging my expertise in data visualization and web development, I designed and developed this dynamic platform to help users comprehend complex COVID-19 data effortlessly.
